panchsheel nagar, Ajmer

EDUCATION

Govt. Polytechnic College Ajmer (2020-2023)
Diploma in civil engineering

Govt. Jawahar Senior Secondary School
RBSE Affiliated

TOOLS & SOFTWARE

- Auto Cad
- 3ds Max
- Revit
- Sketch up
- MS-Excel

SKILLS

- Structural design & analysis
- Construction methods & materials
- Quantity estimation & BOQ
- Site execution & supervision
- Basic knowledge of RCC, steel & masonry
- Labour management
- Material management
- Quality control on site
- Problem-solving at site
- Communication Skills
- Time Management

PROFILE

Civil Engineering diploma holder with practical experience in construction projects. Experienced in site execution, monitoring work progress, and ensuring compliance with drawings and safety standards. Strong teamwork and problem-solving skills on site.

WORK EXPERIENCE

Junior Civil Engineer

MAY 2025 - PRESENT

Bhagwant University

- Managed on-site engineering projects at Bhagwant University, ensuring smooth operations and adherence to project timelines.
- Coordinated with senior engineers and contractors to implement design plans and resolve site-related issues efficiently.
- Conducted regular site inspections to monitor progress, quality, and compliance with safety regulations.
- Assisted in drafting reports and documentation to track project milestones and resource allocation.
- Facilitated communication between the engineering team and other departments to ensure seamless project execution.
- Developed problem-solving skills by addressing on-site challenges and proposing effective solutions.
- Gained practical experience in interpreting technical drawings and specifications during project execution.

Auto CAD & Interior Design

FEB 2024 - MAY 2025

CURIO Interiors - Sketch up

- Prepared 2D AutoCAD drawings (floor plans, sections, elevations)
- Designed the entire interior of the house using SketchUp software, creating a cohesive and functional layout tailored to the client's vision.
- Developed detailed 3D models to visualize the interior spaces, ensuring accurate representation of design elements and spatial arrangement.
- Collaborated with contractors and craftsmen to translate digital designs into reality, overseeing the construction and installation process to achieve the desired interior aesthetic.

CERTIFICATES

- **AutoCAD (2D & Basic 3D) –** Certified
- **3ds Max –** Architectural Modeling & Rendering
- **SketchUp –** 3D Modeling for Building Design
